

eVN AutoGraph is a first of its kind digital merchandising solution – automatically delivering “photo-real” imagery of your entire inventory to your website: VIN specific, absolutely product correct, emotive images. Upgrade to the Enhanced Dealership Background option to choose from multiple angles and add your dealership name to the facade.

Your inventory at your location.

// STAND OUT FROM THE COMPETITION

Don't settle for reused stock images. eVN AutoGraph creates unique CGI images for your digital merchandising needs - 100% product correct, delivered automatically to your site.

// SHOWCASE ALL YOUR INVENTORY

Make sure your entire new vehicle inventory is online. With AutoGraph you can guarantee 100% of your stock is online 100% of the time – not only on delivery but also while in-transit.

// IMPROVE YOUR SPEED TO MARKET

Merchandise every vehicle from the moment of invoice 4150 - as soon as the vehicle is serialized, we create and deliver the vehicles images directly to your website.

// CUSTOMIZE YOUR BRAND IMAGE

Our DIY Photography program can capture your unique dealership brand - reinforcing that the vehicle your customers are shopping for is at your store now.

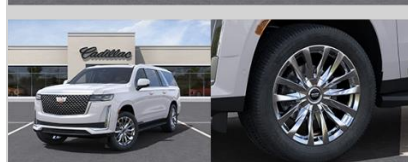

// SAVE MONEY VS TRADITIONAL PHOTOGRAPHY

All-In Costs for Traditional Photography can run upwards of \$40/vehicle. AutoGraph eliminates the vendor fees and logistical costs of on-site vehicle photography.

HIGH-QUALITY, 100% ACCURATE, AND VISUALLY CONSISTENT IMAGES

AutoGraph allows dealers to stand out with product-correct, emotive, photo-quality content of their new vehicle inventory.
